EDUCATION

Islamic University of Technology (IUT) <i>Bachelor of Science in Computer Science and Engineering</i> • Relevant Coursework: Structured Programming I & II, Discrete Mathematics, Digital Logic Design	Gazipur, Bangladesh <i>Expected 2029</i>
Notre Dame College <i>Higher Secondary School Certificate (HSC)</i>	Dhaka, Bangladesh <i>2024</i>
St. Gregory's High School and College <i>Secondary School Certificate (SSC)</i>	Dhaka, Bangladesh <i>2022</i>

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, HTML, CSS
Tools: Git, GitHub

PROJECTS

qari-cli <i>Rust, Ratatui, Crossterm</i> GitHub • Designed a terminal scripture library packaged as a single static binary: a three-column TUI reader with a verse cursor, plus a pipe-friendly CLI (read , search , random , today , pray , hadith). • Organized fourteen shelves (six revelations and eight hadith books) with live fuzzy search, themes, bookmarks, session persistence, and an offline-first disk cache with a bundled fallback. • Shipped through npm, Bun, an install script, and prebuilt binaries for Windows, macOS, and Linux.	2026
ContextForge <i>FastAPI, React, D3.js, Neo4j, spaCy, sentence-transformers</i> • Led a 3-person team to build a multi-agent AI knowledge graph system ingesting arXiv papers, GitHub repositories, and news feeds. • Designed an NER pipeline using spaCy producing a typed relationship graph with edges such as CONTRADICTS, EXTENDS, and REPLICATES, stored in Neo4j. • Built synthesis and research-gap-finding agents with a D3 force graph visualization and a natural language query interface.	2026
Ayatika <i>C, RayLib, SQLite3, libcurl, cJSON, miniaudio, FriBidi</i> • Led a 3-person team building a desktop Quran study application in C with RayLib, owning the backend architecture. • Designed the Quran data layer, live prayer time integration via the Aladhan API, full-text fuzzy search, and audio playback. • Delivered over a structured 9-week sprint with weekly pull request reviews and modular file separation.	2026

ACHIEVEMENTS

Finalist , IUT Devsprint Hackathon	2026
Finalist , BRAC Infinity AI Build Fest, BRAC University	2026
Finalist , SMUCT CSE Festival, Shanto-Mariam University of Creative Technology	2026
Crossword Champion , 3rd Annual Notre Dame Math Festival	2023
Fruits Quiz Champion , Fruits Fiesta Season 5, Notre Dame Eco and Space Club	2023
3rd Position , International Novus Conference (Category: Metamorphose), City Montessori School, Lucknow	2020–21
2nd Position (Class Project), 12th SGHSC Inter School Science, Chess, Art & Cultural Festival	2020
Ranked 3 years running , IFSE Global Math Talent Probe & English Test (best: 72 Math, 84 English)	2017–20
English Olympiad Champion , BSB Foundation Bijoy Utsab	2018
2nd Position (Class Project), 9th SGHSC Inter School Science, Chess, Art & Cultural Festival	2017
100/100 Certificate of Excellence (Levels One to Four), ALOHA Bangladesh	2015–16

CERTIFICATIONS & COURSES

CS50x: Introduction to Computer Science , Harvard (self-paced, lectures completed)	2025
Westford Youth Business Leadership Program , completed	2021
